IICRC Certified Fire, Smoke &
Water Restoration Technician

ACAC Certified Microbial
Remediation Supervisor

HAAG Certified Residential Roof
Inspector

BIOGRAPHY:

With more than 30 years of construction experience and expertise in property loss mitigation and restoration, Jeff offers specialized skills in estimate writing, inspections, and negotiation for commercial and residential properties. Career training, deep industry knowledge, and related experience in property management has allowed Jeff to efficiently provide reasonable solutions to complex issues regarding insurance losses.

SIGNIFICANT CONSULTING PROJECTS:

Ski Resort

A tornado slashed through a mid-sized ski resort causing catastrophic damage to the buildings, lifts, equipment, and lodge. Jeff worked with adjusters for different insurance levels as well as the owners to agree on a settlement with ski season looming. A settlement was reached in order to avoid business interruption and get the ski resort open for the start of the season.

Multi-Family

After the Texas freeze in 2021, Jeff handled a high-end 55+ community with 3 properties and more than 200 units. He scoped damage in all units and negotiated settlements with regards to mitigation and repairs.

Camping Lodge Fire

A camping lodge building in a remote area was totally destroyed by fire, leaving nothing but a pile of burnt wood and ash. Using original building plans and construction documents, Jeff rebuilt the lodge digitally to properly value the new building, then worked with the adjuster, builder, and owner to negotiate a settlement.
