BIOGRAPHY:

After retiring from the Air Force in 2010. George pursued insurance adjusting. Integrity and his attention to detail throughout his 22-year Air Force Career, has also made him successful in the insurance industry. Working as an Independent Adjuster for insurance carriers and then as a Public Adjuster, George has estimating and negotiating experience on both sides of the loss. His residential experience ranges from single family residential homes, including historic, to condominium and apartment complexes. His commercial experience encompasses hotels, medical facilities, gas stations, convenience stores, auto repair garages, airplane hangars, and churches.

SIGNIFICANT CONSULTING PROJECTS:

Sacred Spaces

Hurricane Sally brought destruction to the Gulf Coast. St Paul's Lutheran Church in Foley, AL had extensive wind and water damage. George worked with his team of estimators, coordinating, compiling, and reviewing the damages for the estimate to get the church back to use by the church members. In all the estimated damages exceeded \$1.7 million.

Multi-Family

Beach front properties usually receive a large amount of damage during a hurricane. Hurricane Sally did not disappoint, The Beach Music rental properties in Orange Beach, AL received damages to every unit, some more severe than others. George inspected and wrote accurate estimates for these multi-level buildings totaling more than \$3.5 million.

Curriculum Vitae Continued

Commercial

An airplane hangar in Foley, Alabama sustained wind and water damage from hurricane Sally. There was damage to the roof, exterior, and interior office spaces. George inspected and wrote the estimate for the repairs to the structure. Quick turnaround time of the accurate estimate contributed to the quick settlement of the claim.

Project Management

Hurricane Ida caused extensive damage in Louisiana. George managed his team of estimators and coordinated with a third party to assist with Matterport scans of multi campus housing developments. These public housing projects required extensive inspections to determine the extent of hurricane damages. George's quick action saved time and enabled the project to be submitted within the timeline needed.

PROJECT DIVERSITY:

- Religious Structures
- Historic Structures
- Multi-Family
- Condominiums
- Healthcare Facilities
- Civic and Public Buildings
- Environmental Claims, including Mold Mitigation and Hazardous Materials
- High-End Residential Losses
