Based in North Carolina

BIOGRAPHY:

Wes is a Building Consultant with 20 years of experience in construction consulting, analysis, negotiation, construction management, and adjusting. He has extensive expertise of estimating damaged real property with additional training in water damage assessment.

Wes began his journey in this industry in 2003 as a Field Adjuster handling multi-line claims in high-value and high-volume. In 2010, he made the transition to claims consulting. In 2013, Wes began project management in addition to the claims consulting. In 2015, he made the move to only doing claims consulting. He brings an organized and detailed approach to estimating claims.

SIGNIFICANT CONSULTING PROJECTS:

Residential - Apartments

Post the Texas Freeze event in 2021, Wes was engaged to assist the insurance carrier to properly assess and calculate the insured's damages. The insured suffered extensive damages to 5 apartment complexes located in several areas of Austin, TX. Wes was tasked with calculating the value of the damages to all damaged units at the 5 complexes, as well as reviewing and validating over \$2 million in Emergency Services invoices.

Commercial/Retail Facilities

Post Hurricanes Irma and Maria, Wes was engaged by a carrier to assist them in clerking, validating Emergency Services invoices, calculating damages and supervising reconstruction of 2 shopping malls in Puerto Rico. The damages totaled over \$270 million at both locations.

Curriculum Vitae Continued

Golf Courses

Post Hurricane Florence in 2018, Wes was engaged to assist the insurance carrier to clerk, oversee moisture mapping, validate Emergency Services invoices, and calculate the total amount of damages at 3 major golf courses on the coast of South Carolina. Damages at all 3 locations surpassed \$10 million total.

High-End Residential - Fire

Post wildfire losses in Oregon, California, and Colorado, Wes was engaged to assist multiple insurance carriers to validate Emergency Services invoices and calculate total amount of damages at high end residences and vineyards spanning across Oregon, California, and Colorado. Damages at all 3 locations surpassed \$15 million total.
