Bachelors in Construction  
Project Management,  
Brigham Young University

Xactimate

Revit BlueBeam

Procore

Fluent in Spanish

### **BIOGRAPHY:**

Gordon is a project management professional with 38 years of experience working in both the public and private sector. He is a proven team leader and trainer who is hardworking and committed to continuous process improvement. His thorough knowledge of construction details, methods, and best practices inform his project management and large loss mitigation and reconstruction oversight.

### **SIGNIFICANT CONSULTING PROJECTS:**

#### *Highrise Multiuse*

In San Diego, California, Gordon was the Senior Project Manager responsible for oversight of a team of project managers, engineers, and superintendents on a 47-story highrise multiuse family/retail building project totaling \$300M. He used his thorough knowledge of construction details, methods, and best practices to advance the implementation of goals, objectives, and priorities to meet the owner's expectations.

#### *Large Loss Property Inspection*

In Chattanooga, Tennessee, Gordon was a Director for a large loss mitigation and reconstruction contractor who developed and trained teams on best practices for conducting large loss property inspections. He used his detail-oriented approach to teach teams how to properly investigate the points of failure, produce mitigation and restoration scopes, and negotiate claims with adjusters and consulting engineers. Gordon also produced upgraded construction details and best practices plans for the mitigation and reconstruction crews.

#### *CAT Experience*

In Richardson, Texas, Gordon ran large loss wind, water, and flood loss claims as an adjuster for several seasons after large catastrophic hurricanes. His duties also included training new adjusters on best practices of compiling and documenting estimates.

### **Curriculum Vitae Continued**

#### *Hospitality & Multi-Use*

Gordon was the President of Construction who supervised teams of office and field personnel over numerous projects ranging in value from \$5M to \$70M in Arizona, Texas, and Florida. He also used his commitment to continuous process improvement to organize subcontractor development throughout these projects' development. His projects included high-end hotels, multi-family structures, and multi-use developments over the course of 19 years.

#### *Supervisory & Estimating Experience*

In the San Francisco Bay area, Gordon supervised the estimating team and project managers for the construction of schools, libraries, multi-family structures, shopping centers, and restaurants. He also managed the construction of seismic upgrades to historic buildings and single-family home projects of various sizes up to \$50M. Gordon also used his detail-oriented approach to organize over 100 Human Resources department office and field personnel.
